REQUEST FOR YOUR SUPPORT OF THE PROPOSAL FOR MAKING PARENTAL ALIENATION A PART OF THE ICD-11 BY THE WORLD HEALTH ORGANISATION (WHO):

URGENT - regarding WHO issue of ICD-11:

ICD-11 draft, released in June 2018 contains "Parental alienation" in the vocabulary list. Recently a group of feminists and "court leeches" started flooding WHO with requests to remove any reference of PA from final ICD-11 version, which is expected sometime this month.

The best way to prevent this is if as many as possible of us go register on WHO page and enter Agree or Disagree with corresponding comments. Also we can comment ourselves, and upload articles to support our position. Here is how to do it (slightly modified instructions of W. Bernet from PACG):

FIRST: Go to the ICD-11 website and register yourself, which is easy to do. Anyone can register and comment; you do not need to be a medical or mental health professional. You register with ICD-11 by going to this page: https://icd.who.int/dev11/l-m/en. About half-way down the page is a link to "Register." You will need to identify yourself, provide an email address, and answer a couple of questions. After you register, you will automatically go to the page with a search function.

If you previously registered, go to the same page, https://icd.who.int/dev11/l-m/en, and sign-in by hitting the link at the upper right-hand corner of the page.

SECOND: If either case, you will end up on a page that has a search function in the upper left-hand corner of the page. After you reach that page, search for "parental alienation." That will take you to the page for Caregiver-Child Relationship Problem. Under the heading for "Index Terms," it says "Parental Alienation" with a small arrow going to the right. Hit the arrow, which takes you to the page for Parental Alienation. Then, hit the button at the top that says Contributions and then hit Proposals.

THIRD: You should see a long list of entries called "Delete Entry Proposal" and "Add New Entry Proposal." At the bottom of the list is the most important "Content Enhancement Proposal," with William Bernet name on it and the date, 17 September 2017. Go to that page.

FOURTH. That should take you to the page for Caregiver-Child Relationship Problem and Parental Alienation. At the top of that page is a description of Parental Alienation. Please say that you AGREE with that definition. You may also say that you AGREE with the various synonyms at the bottom of the page.

FIFTH. Go back to the preceding page with the long list of entries. If you scan through these various pages, you will find numerous comments for and against parental alienation. Some of the opinions regarding parental alienation are absolutely ridiculous. If you have an opinion about any of these comments, enter

your own opinion. Read as many opinions as you want under the various entries, and try to say that you AGREE with the comments that make sense and support parental alienation; say that you DISAGREE with the comments that do not make sense. If you want, provide links to material that you consider important.
